# MAKING TOOLS FOR BUILDING PROFESSIONALS SINCE 1937

**For over 85 years, EDMA has been manufacturing and marketing tools for building professionals and DIY users.**

Discover a complete range of quality, innovative products for drywallers, painters, tilers, flooring installers, facade installers, roofers, masons and landscapers to provide them with real solutions for real time and effort saving day to day work.

## EDMA EXCLUSIVE DISTRIBUTOR OF CONDTROL BRAND IN FRANCE

In February 2022, EDMA acquired TOPOMESURE, adding a complete range of measuring instruments, professional laser levels and diagnostic tools to its range of tools for professionals building workers.

Condtrol powered by Edma, is the know-how, experience and expertise to provide professionals a reference measurement.

# RESPONSIBLE FRENCH MANUFACTURING

Based in the south-east part of France, **EDMA is committed to manufacturing a growing number of products in France**, while continuing to integrate its business into a global approach to sustainable development.

## FRENCH INDUSTRY

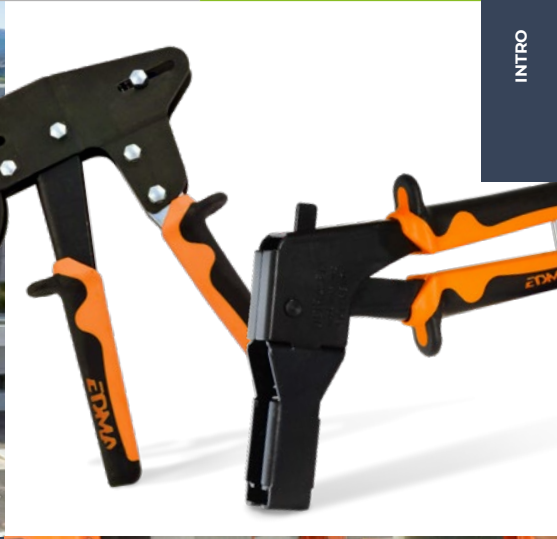

In 2020, EDMA was awarded the French Fab label, which embodies the desire for French industry to be innovative, export-oriented and open to change.

With this strategic approach in mind, in 2023 EDMA has been optimising its production resources and relocating all its teams from Baillet-en-France (95) and Saint-Raphaël (83) to a brand new 6,300 m<sup>2</sup> building in Puget-sur-Argens (83). This relocation, which complements the company's existing production facilities, has given EDMA the opportunity to install new machinery, enabling it to internalise the know-how involved in manufacturing its products.

## A COMMITTED COMPANY

For over 10 years, EDMA has consistently renewed its ISO 9001 certification primarily driven by a commitment to excellence.

However, it is more recently, since 2023, that Edma can assure its clients and partners of the control of its environmental impact through ISO 14001 certification and obtaining the PEFC label.

Decorated with the Ecovadis silver medal, EDMA is among the top 8% of the most high-performing companies in the sector of manufacturing Hand Tools, and Hardware.

## RESPONSIBLE PACKAGING

As part of our commitment to responsible packaging, many of our products have been redesigned to significantly reduce the use of plastic in favour of recyclable cardboard.

## REPAIRABLE TOOLS

Many EDMA tools are designed in such a way that one or more of their component parts can be replaced.

This repairability allows users to extend the life of their EDMA tools and helps to reduce waste production.

An online shop at [www.edma.fr/en](http://www.edma.fr/en) offers all available EDMA spare parts for sale.

# INNOVATION AND QUALITY AT THE HEART OF OUR DNA

Because EDMA understands the daily challenges faced by professionals building workers, our tools are designed in a constant quest for innovation and quality to provide real **«TIME AND EFFORT SAVING SOLUTIONS»**.

## CLOSE TO PROFESSIONAL USERS

Thanks to the close relationship that EDMA cultivates with the users of its products, it is able to gather their needs and feedback, which feeds into the design of ever more appropriate and efficient tools.

## QUALITY & STRENGTH

Whether for handling materials, cuts precision or the fasteners strength, our products are designed to guarantee superior results.

Quality is present at every stage in the design and manufacture of EDMA tools. It is a combination of field experience and technological advances. Various certifications attest to this constant concern, such as ISO 9001 and LNE.

# TOOLS EXPORTED WORLDWIDE

**EDMA products are recognised by professionals and occasional users on all 5 continents and are exported to 60 countries.**

Present in many tool shops in France, EDMA also has a strong export culture. The «Authorised Economic Operator» (AEO) approval obtained in 2020 facilitates and secures its trades and transactions at international customs level.

Thus, EDMA continues its evolution and development, started over 85 years ago, while demonstrating more than ever its commitment to the values of innovation and quality that it holds close. Today, EDMA has more than 60 employees and a strong sales force, contributing to the daily growth of the business. All EDMA services, whether administrative, commercial, or logistical, are capable of responding to various national and international demands.

## HOT WIRE CORNER CUTTER

### For polystyrene

Cutting accessory for expanded polystyrene (E.P.S.) and extruded polystyrene (X.P.S.) to adapt on a hot wire cutting table (ref. 266555/367155).

Allows multiple vertical cutting possibilities.

Operates independently on 18 V - 2 Ah lithium battery.

Possibility of connecting the corner cutter directly to the power supply of the table ref. 367155, using the spring cable ref. 536713. CE certified.

#### ON THE TABLE REF. 266555 :

##### 2 possible positions depending on the height of the panels to be cut :

- High position : for panels up to 1000 mm high.
- Low position : for panels up to 600 mm high.

#### ON THE TABLE REF. 367155 :

##### 3 possible positions depending on the height of the panels to be cut :

### LEAD DRESSER

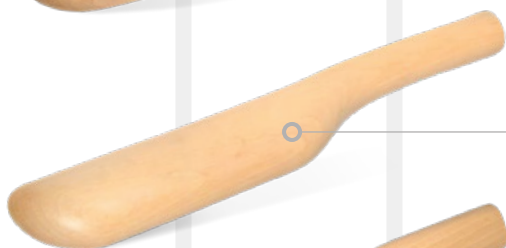

Asymmetrical shape.  
For zinc and lead work.  
Its flat shape allows flattening, metal forming and bending.

Ref. : 132755

### BENDING STICK

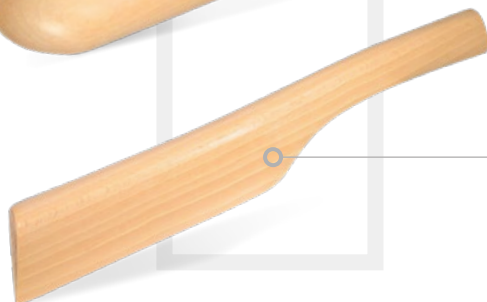

Round, bent shape.  
For zinc and lead work.  
Allows customized shaping.

Ref. : 132655

### BOSSING STICK

Slim, rounded shape.  
For zinc and lead work.  
Allows regular bending.

Ref. : 132855

### SETTING STICK

Slim, straight shape.  
Allows modelling and shaping of lead, copper, aluminium, zinc and other soft metals.

Ref. : 037255

### GROOVING HAMMER

1 round face and bent edge.  
Polished finish.  
Allows metal to be shaped, stretched or flattened.

## TINMAN'S MALLET

Made of PVC, limiting marking on the metal during use.
